JAPANESE JOURNAL OF PARASITOLOGY

寄 生 虫 学 雑 誌

第 24 巻

編集幹事

横川宗雄

編集委員

浅見　敬三・小林　昭夫・大家　裕・田中　寛・安羅岡一男
吉村　裕之・山下　次郎

編集顧問

林　滋生・稲臣　成一・猪木　正三・石崎　達・片峰　大助
岡村　一郎・大鶴　正満・山口　富雄・吉田　幸雄

日本寄生虫学会

1975

寄生虫学雑誌総目次(第24巻)

第24巻第1号(1975, 昭和50年2月, 1~47頁)

林　弘三・石川富士郎・岡　好万・古谷正人・伊藤義博・尾崎文雄：実験トリコモナス症におけるマウスの防御反応誘導に及ぼす adjuvant の効果……1
及川　弘・川口陽資：鶏コクシジウム症における感染様式と発病の程度ならびにオオシスト産生との関係　I. *Eimeria acervulina* 感染および *E. tenella* 感染……6
尾崎文雄・斎藤　元・柳生正見・古谷正人：Tinidazole の膣内移行およびトリコモナス症に対する一回投与法……16
川島健治郎・宮原道明・多田　功・坂口祐二・橋口義久・高岡宏行：能登半島で見出された大平肺吸虫と佐渡肺吸虫に関する研究……24
橋口義久・武井次雄：温度処理アニサキス幼虫のダイコクネズミに対する感染能力……34
神谷晴夫・関　直樹・多田融右・神谷正男：札幌市における捕獲犬の寄生蠕虫について. II.……41
日本寄生虫学会支部大会記事(1)……1

第24巻第2号(1975, 昭和50年4月, 49~92頁)

福留祥子：ブラジル鉤虫およびセイロン鉤虫の非固有宿主(マウス)体内における行動と発育……49
赤羽啓栄・大島智夫・嶋津　武・広沢毅一：肝蛭症の診断に関する研究　(1) ヒト糞便内肝蛭卵を対象とした数種集卵法の効果……55
富田精一郎：*Thelazia callipaeda* の微細構造　第2編 *Thelazia callipaeda* 体壁の微細構造についての研究……61
TAKESHI KURIHARA AND SRI OEMIJATI: Timor-type Microfilaria found in Flores Island, Indonesia……78
大森康正：Meromyarian 型線虫の筋細胞配列　(2) 鉤虫と腸結節虫の雌成虫について……81
AKIHIKO UCHIDA AND HIROSHI ITAGAKI: Studies on the Amphibian Helminths in Japan II. The Distribution of *Glypthelmins rugocaudata* (Yoshida, 1916) (Trematoda: Plagiorchiidae) in Japan and its New Hosts……87
第67回　総会報告記事……91
日本寄生虫学会支部大会記事(2)……31

第24巻第3号(1975, 昭和50年6月, 93~175頁)

山口富雄・中出幸克・高田伸弘・八木沢　誠・工藤誠二・武田良次・稲村栄一・稲葉孝志・黄　文　雄：Pyrantel pamoate による東洋毛様線虫の集団駆虫成績……93
及川　弘・川口陽資：鶏コクシジウム症における感染様式と発病の程度たらびにオオシスト産生との関係　II. *Eimeria acervulina* と *E. tenella* の混合感染……99
斉藤　奨・岩永　襄・森山信子・土肥博雄・中野美代子・藤田直子・倉本孝子・辻　守康：広島県のカワニナに寄虫するセルカリアの観察……107
山下隆夫・佐藤良也・白木　公・大鶴正満・鈴木俊夫：広東住血線虫のラット，マウスおよびモルモット体内における発育……114
嶋津　武：駿河湾産オキアミ *Euphausia similis* に見られた寄生生物について　V. 条虫幼虫……122
初鹿　了・前島条士・加茂　甫：宮崎肺吸虫と他種肺吸虫の混合感染実験……129
近藤力王至・栗本　浩・織田　清・嶋田義治・高野　登・藤沢喜久子・大高恵子：実験的移行性幼線虫症の研究(1)犬蛔虫幼虫感染マウスの血液像……137
町田昌昭・北村之利・神谷晴夫：キタキツネから発見された本邦未記録種 *Alaria alata* について……144
第44回日本寄生虫学会概況・会員名簿・おしらせ……148

第 24 巻 第 4 号 (1975, 昭 和 50 年 8 月, 177～254 頁)

TOZO KANDA, DONG WIK CHOI AND CHONG YOON JOO: Epidemiological Studies on Malayan Filariasis in an Inland Area in Kyungpook, Korea……177
鈴木俊夫・石田和人・石郷岡清基・土井一彦・大鶴正満・佐藤良也・浅石和昭・西野千郷：アニサキス症の免疫学的診断法に関する研究 5. 胃アニサキス症についての皮内反応，間接赤血球凝集反応および生検粘膜の病理組織学的検査……184
佐藤良也・山下隆夫・大鶴正満・鈴木俊夫・浅石和昭・西野千郷：アニサキス症の発症機序の解析 1. 消化管のアナフラキシー反応……192
荒木国興：肺吸虫症の実験的治療に関する研究 大平肺吸虫の幼虫期に対する Bithionol および 1,4-bis-trichloromethylbenzol (Hetol) の治療効果について……203
宮本昭正・伊藤幸治・石崎 達・保坂幸男・久津見晴彦・大友弘士・薬袋 勝：Rast 法による日本住血吸虫症患者血清の特異的 IgE 値と全 IgE 値ならびに皮内反応閾値との関係……220
辻 守康：数種寄生蠕虫類の感作血清による免疫電気泳動像の比較研究……227
大森康正：Meromyarian 型線虫の筋細胞配列 (3) Strongylidae, Trichonematidae 2, 3 の雌成虫……237
伊藤二郎・望月 久：静岡県におけるサワガニの宮崎肺吸虫被嚢幼虫の分布とその寄生状況……241
平田瑞城・阿久沢 実：日本住血吸虫の感染動物にみられる循環抗原について 1. 実験的感染ウサギにおける循環抗原の検出及び性状……250

第 24 巻 第 5 号 (1975, 昭 和 50 年 10 月, 255～331 頁)

高岡正敏・田中 寛：コトンラットフィラリア *Litomosoides carinii* の排泄・分泌抗原に関する研究……255
HIROJI KANBARA: The Membrane Characters of Different Forms of *Trypanosoma cruzi* (II)……265
斉藤 奨・福本幸夫：アナグマの膵臓から検出された *Tetragomphius melis* Ohbayashi *et al.*, 1974 (Family: Ancylostomatidae) について……270
及川 弘・川口陽資：鶏コクシジウム症における感染様式と発病の程度ならびにオオシスト産生との関係 III. *Eimeria maxima* 感染および *E. necatrix* 感染……276
PONGPAN KONGTONG AND SHOZO INOKI: Scanning Electron Microscopic Studies on Penetration of *Trypanosoma cruzi* into Fibroblast Cells……284
大森康正・大林正士：Meromyarian 型線虫の筋細胞配列(4)Strongylidae および Ancylostomatidae 科数種の雌成虫……294
嶋津 武：一新吸虫 *Parvatrema rebunense* sp. nov. (Trematoda: Digenea: Gymnophallidae) について……300
YASUMASA TONGU, SEIICHIRO TOMITA, DAIGORO SAKUMOTO, SETSUO, SUGURI, TETSURO SAITO, SHUJI IKEDA AND SEIITI INATOMI: Fine Structure of Penetration Gland Cell in the Genus *Metagonimus*……312
YUKIO HOSAKA AND ELMER G. BERRY: Schistosome Miracidial Immobilization caused by Tissue Extracts prepared from Various Species or Strains of Snails……318

第 24 巻 第 6 号 (1975, 昭 和 50 年 12 月, 333～382 頁)

YOSHIHIRO ITO, MASATO FURUYA, MIYOKO DOI, HIROMI HAYASHI, MASAMI YAGYU, YOSHIKAZU OKA AND HUMIO OSAKI: Protective Role of Immune Lymphoid Cells and Phagocytes in Experimental Trichomoniasis in Mice……333
赤羽啓栄：肝蛭感染ウサギの血液性状ならびに免疫学的抗体価の推移 —特に体内移行との関係— 第1報 感染後の血液学的諸性状の推移……340
赤羽啓栄：肝蛭感染ウサギの血液性状ならびに免疫学的抗体価の推移 —特に体内移行との関係— 第2報 感染後の寒天ゲル内沈降反応ならびに補体結合反応抗体

価の推移……………………………………………………………………347
森下哲夫・長瀬啓三・森山海一・松本美夫：*Mesocestoides lineatus* の日本における人体寄生の第11例について……………………………………………………………353
MINORU AKUSAWA AND NOBUO DEGUCHI: Anthelmintic Effect of Mebendazole against *Trichuris vulpis* in Dogs……………………………………357
嶋津　武：駿河湾産オキアミ *Euphausia similis* に見られた寄生生物について VI. 線虫幼虫……………362
SHIGEHIKO UNI and SUEHISA TAKADA: The Surface Structure of Sense Organs of *Toxocara cati* (Schrank, 1788) viewed with the Scanning Electron Microscope……………………………………………………………365
大森康正・大林正士：Meromyarian 型線虫の筋細胞配列 (5) *Quilonia travancra* 雌の筋細胞配列と *Decrusia additicta* 雌の筋細胞の欠損……………………………375
Sarojam, K. MANKAU: Host Sex and Sex Hormones as a Factor Affecting *Trypanosoma lewisi* Population in white Rats………………………………379

JAPANESE JOURNAL OF PARASITOLOGY

Chief Editor

M. YOKOGAWA

Assistant Editors

K. ASAMI A. KOBAYASHI H. ÔYA H. TANAKA K. YASURAOKA
H. YOSHIMURA J. YAMASHITA

Consultants

S. HAYASHI S. INATOMI S. INOKI T. ISHIZAKI D. KATAMINE
I. OKAMURA M. OTSURU T. YAMAGUCHI Y. YOSHIDA

VOLUME 24, 1975

Contents

No. 1 February

HIROMI HAYASHI, FUJIRO ISHIKAWA, YOSHIKAZU OKA, MASATO FURUYA, YOSHIHIRO ITO AND HUMIO OSAKI: Effects of Adjuvant on Induction of Protective Reaction in Experimental Trichomoniasis in Mice 1

HIROSHI OIKAWA AND HARUMOTO KAWAGUCHI: Effect of Mode of Infection on Manifestation of Symptom and Oocyst Production in Chicken Coccidiosis I. *Eimeria acervulina* and *E. tenella* 6

HUMIO OSAKI, HAJIME SAITO, MASAMI YAGYU AND MASATO FURUYA: Vaginal Levels of Oral Tinidazole in Rats and Oral Single-Dose Treatment of Trichomoniasis with Tinidazole in Man and Mice 16

KENJIRÔ KAWASHIMA, MICHIAKI MIYAHARA, ISAO TADA, YUJI SAKAGUCHI, YOSHIHISA HASHIGUCHI AND HIROYUKI TAKAOKA: Studies on *Paragonimus ohirai* Miyazaki, 1939 and *P. sadoensis* Miyazaki *et al.*, 1968 Found in Noto Peninsula, Ishikawa Prefecture, Japan 24

YOSHIHISA HASHIGUCHI AND TSUGIO TAKEI: Effects of Various Temperatures on the Infectivity of *Anisakis* Larvae to Albino Rat 34

HARUO KAMIYA, NAOKI SEKI, YUSUKE TADA AND MASAO KAMIYA: Helminths of Stray Dogs in Sapporo. II 41

No. 2 April

SACHIKO FUKUTOMI: The Migratory Behaviour and the Development of *Ancylostoma braziliense* and *Ancylostoma ceylanicum* in the Mouse 49

HIROSHIGE AKAHANE, TOMOO OSHIMA, TAKESHI SHIMAZU AND KIICHI HIROSAWA: Diagnosis of Fascioliasis I. Comparison of the Efficacies of Various Concentration Technics of Ova in Stool 55

SEIICHIRO TOMITA: Ultrastructure of *Thelazia callipaeda* Railliet & Henry 1910 2. The Body Wall 61

TAKESHI KURIHARA AND SRI OEMIJATI: Timor-type Microfilaria found in Flores Island, Indonesia 78

YASUMASA OHMORI: Arrangement of the Somatic Muscle Cells of Meromyarian Nematodes (2) Females of Hookworms and Nodularworms 81

AKIHIKO UCHIDA AND HIROSHI ITAGAKI: Studies on the Amphibian Helminths in Japan

II. The Distribution of *Glypthelmins rugocaudata* (Yoshida, 1916) (Trematoda: Plagiorchiidae) in Japan and its New hosts..........87

No. 3 June

TOMIO YAMAGUCHI, YUKIYOSHI NAKADE, NOBUHIRO TAKADA, MAKOTO YAGISAWA, SEIJI KUDO, RYOJI TAKEDA, TAKASHI INABA, EIICHI INAMURA AND WEN-SHIUNG HUANG: Treatment of *Trichostrongylus orientalis* Infections with Pyrantel Pamoate (Combantrin)..........93
HIROSHI OIKAWA AND HARUMOTO KAWAGUCHI: Effect of Mode of Infection on Manifestation of Symptom and Oocyst Production in Chicken Coccidiosis II. Mixed Infection with *Eimeria acervulina* and *E. tenella*..........99
SUSUMU SAITO, YUZURU IWANAGA, NOBUKO MORIYAMA, HIROO DOHY, MIYOKO NAKANO, NAOKO FUJITA, TAKAKO KURAMOTO AND MORIYASU TSUJI: Observations on the Cercariae in Fresh Water Snails, *Semisulcospira* Spp., in Hiroshima Prefecture, Japan..........107
TAKAO YAMASHITA, YOSHIYA SATO, TADASHI SHIRAKI, MASAMITSU OTSURU AND TOSHIO SUZUKI: Development of *Angiostrongylus cantonensis* in Rats, Mice and Guinea Pigs..........114
TAKESHI SHIMAZU: On the Parasitic Organisms in a Krill, *Euphausia similis*, from Suruga Bay V. Larval Cestodes..........122
RYO HATSUSHIKA, JOJI MAEJIMA AND HAJIME KAMO: Mixed infection with *Paragonimus miyazakii* and other Species in an Experimental Host..........129
KAORU KONDO, HIROSHI KURIMOTO, KIYOSHI ODA, YOSHIHARU SHIMADA, NOBORU TAKANO, KIKUKO FUJISAWA AND KEIKO OTAKA: Experimental Studies on "Larva Migrans" 1. Transition of Blood Picture in Mice Infected with *Toxocara canis* Larvae..........137
MASAAKI MACHIDA, YUKITOSHI KITAMURA AND HARUO KAMIYA: Occurrence of *Alaria alata* (Diplostomidae: Digenea) from the Red Fox in Hokkaido, Japan..........144

No. 4 August

TOZO KANDA, DONG WIK CHOI AND CHONG YOON JOO: Epidemiological Studies on Malayan Filariasis in an Inland Area in Kyungpook, Korea..........177
TOSHIO SUZUKI, KAZUTO ISHIDA, SEIKI ISHIGAOKA, KAZUHIKO DOI, MASAMITSU OTSURU, YOSHIYA SATO, KAZUAKI ASAISHI AND CHISATO NISHINO: Studies on the Immunological Diagnosis of Anisakiasis 5, Intradermal and Indirect Hemagglutination Tests, and Histopathological Examination of biopsied Mucous Membranes on Gastric Anisakiasis..........184
YOSHIYA SATO, TAKAO YAMASHITA, MASAMITSU OTSURU, TOSHIO SUZUKI, KAZUAKI ASAISHI AND CHISATO NISHINO: Studies on the Etiologic Mechanism of Anisakiasis 1. The Anaphylactic Reaction of Digestive Tract to the Worm Extracts..........192
KUNIOKI ARAKI: Studies on Experimental Chemotherapy of Paragonimiasis Therapeutic Effects of Bithionol and 1, 4-bis-trichloromethylbenzol (Hetol) Against Various Stages of Development of *Paragonimus ohirai* in Rats..........203
TERUMASA MIYAMOTO, KOJI ITO, TATSUSHI ISHIZAKI, YUKIO HOSAKA, HARUHIKO KUTSUMI, HIROSHI OHTOMO AND MASARU MINAI: Specific IgE Antibody and Total IgE in Sera, and Threshold Values of Skin Test in Patients of Schistosomiasis japonica..........220
MORIYASU TSUJI: Comparative Studies on the Antigenic Structure of Several Helminths by Immunoelectrophoresis..........227
YASUMASA OHMORI: Arrangement of the Somatic Muscle Cells of Meromyarian Nematodes (3) Some Females of Strongylidae and Trichonematidae..........237
JIRO ITO AND HISASHI MOCHIZUKI: Studies on the Incidence of encysted Larvae of *Paragonimus miyazakii* Kamo *et al*, 1961 in the Carb *Potamon dehaani* in Shizuoka

Prefecture, Japan 241
MIZUKI HIRATA AND MINORU AKUSAWA: Circulating Antigen in Animals infected with *Schistosoma japonicum* 1. Detection and Characteristics of Circulating Antigen in infected Rabbits..254

No. 5 October

MASATOSHI TAKAOKA AND HIROSHI TANAKA: Studies on Excretory and Secretory Antigen in Cotton Rat Filaria, *Litomosoides carinii* 255
HIROJI KANBARA: The Membrane Characters of Different Forms of *Trypanosoma cruzi* (II)..265
SUSUMU SAITO AND YUKIO FUKUMOTO: *Tetragomphius melis* Ohbayashi *et al.*, 1974 (Nematoda, Ancylostomatidae) from the Pancreas of Japanese Badger, *Meles meles anakuma* 270
HIROSHI OIKAWA AND HARUMOTO KAWAGUCHI: Effect of Mode of Infection on Manifestation of Symptom and Oocyst Production in Chicken Coccidiosis III. *Eimeria maxima and E. necatrix* 276
PONGPAN KONGTONG AND SHOZO INOKI: Scanning Electron Microscopic Studies on Penetration of *Trypanosoma cruzi* into Fibroblast Cells..284
YASUMASA OHMORI AND MASASHI OHBAYASHI: Arrangement of the Somatic Muscle Cells of Meromyarian Nematodes (4) Some Females of Strongylidae and Ancylostomatidae 294
TAKESHI SHIMAZU: On *Parvatrema rebunense* sp. nov. (Trematoda: Digenea: Gymnophallidae) 300
YASUMASA TONGU, SEIICHIRO TOMITA, DAIGORO SAKUMOTO, SETSUO SUGURI, TETSURO SAITO, SHUJI IKEDA AND SEIITI INATOMI: Fine Structure of Penetration Gland Cell in the Genus *Metagonimus*..312
YUKIO HOSAKA AND ELMER G. BERRY: Schistosome Miracidial Immobilization caused by Tissue Extracts prepared from Various Species or Strains of Sanils..............................318

No. 6 December

YOSHIHIRO ITO, MASATO FURUYA, MIYOKO DOI, HIROMI HAYASHI, MASAMI YAGYU, YOSHIKAZU OKA AND HUMIO OSAKI: Protective Role of Immune Lymphoid Cells and Phagocytes in Experimental Trichomoniasis in Mice 333
HIROSHIGE AKAHANE: The Characteristic Changes of Haematological Findings and Immunological Response of the Rabbits Infected with *Fasciola* sp. by the Migration of Fluke in the Liver I. The Characteristic Changes of Haematological Findings 340
HIROSHIGE AKAHANE: The Characteristic Changes of Haemtological Findings and Immunological Response of the Rabbits Inefcted with *Fasciola Sp.* by the Migration of Fluke in the Liver. II. The Characteristic Changes of the Titers of Ouchiterlony and Complement Fixation Tests..347
TETUO MORISITA, KEIZO NAGASE, KAICHI MORIYAMA AND YOSHIO MATUMOTO: The 11 th Case of Humam Infection with *Mesocestoides Lineatus* in Japan 353
MINORU AKUSAWA AND NOBUO DEGUCHI: Anthelmintic Effect of Mebendazole against *Trichuris vulpis* in Dogs..357
TAKESHI SHIMAZU: On the Parasitic Organisms in a Krill, *Euphausia Similis*, From Suruga Bay VI. Larval Nematode 362
SHIGEHIKO UNI AND SUEHISA TAKADA: The Surface Structure of Sense Organs of *Toxocara cati* (Schrank, 1788) viewed with the Scanning Electron Microscope 365
YASUMASA OHMORI AND MASASHI OHBAYASHI: Arrangement of the Somatic Muscle Cells of Meromyarian Nematodes (5) On a Female of *Quilonia Travancra* and Muscle Deficiency Found in a Female of *Decrusia Additicta* (Strongyloidea; Strongylina).......375
Sarojam, K. MANKAU: Host Sex and Sex Hormones as a Factor Affecting *Trypanosoma lewisi* Population in White Rats..379
